

THIRD GRADE

August 21-25

LOOK WHAT WE LEARNED THIS WEEK!

MATH

- Place Value - every number has a special place and a special value. This week we reviewed place value through 1,000 and learned about the ten thousands and hundred thousands. We did all kinds of activities.
- Vocabulary - standard form and expanded form. Expanded form is like a slinky - we streeeeetch out the number.
- We played tons of games with funky dice. Some of the dice even went to the hundred thousands! Mrs. Troester even gave us some free time to spin them crazy like tops.

WRITING

- Teammate interviews using a Venn Diagram - on one side we shared our own likes. On the other side we met with a classmate and interviewed them to see what similarities and differences we had. In the middle we listed everything we had in common.
- My Snapshots of Summer - This is where we got to share all of the awesome things we experienced over the summer.
- Mrs. Troester played a trick on us and told us we were taking a super important quiz. Really it was just a quiz all about her!

READING

- Grammar - 'grumpy' prefixes like 'un' and 'non' make the -UGH sound.
- Vocabulary - Mrs. Troester LOVES vocabulary. We used our vocabulary words all week long and even found them in stories.
- Our primary read this week was First Day Jitters and we focused on Characters, Plot, and Setting.

SOCIAL STUDIES

- We love globes! We studied continents, oceans, and specific countries.
- We moved all of the furniture in the classroom and made our portable a giant map.

DRAGON CLUB

- It is time to get to know some of the new faces and develop stronger relationships with the familiar faces in our class. We played a ton of games that helped us get to know everyone in our new third grade class.

Check out the class website for photos from this week and last!

Upcoming Dates:

August 29 - Curriculum Night
(parents only please)
September 4th & 5th - No
School
